Attention

▽ The COVID-19 infection rate among students etc. (people in their 20s) has been on the rise in recent days. With this information in mind, we request universities and other schools to **thoroughly implement infection prevention measures and avoid activities which may heighten the risk of infection among students.**

Requests for Prefectural Residents (All Areas in Miyagi)

Infection Resurgence Prevention period (until August 31)

- Thoroughly carry out infection prevention measures during outings such as avoiding the “three Cs” /”five activities※”
- Refrain from non-essential travel outside the prefecture, in particular postponing or refraining from travel to and from areas under the state of emergency and quasi-state of Emergency
- When possible, avoid going to crowded locations during busy hours.
- Refrain from going to restaurants and other establishments that have not thoroughly implemented infection prevention measures or are not following the early business closure request (with the exception of delivery/take out)
- Refrain from group dining and events that involve alcohol or last for long periods of time. Wear a mask when conversing. Be careful even when alcohol is not involved.
- Comply with infection prevention measures implemented by restaurants.
- Refrain from carrying out activities that might heighten the risk of infection.

※Activities where the risk of infection is high, ①gatherings with alcohol, etc., ②group dining with large numbers of people over long periods of time, ③conversing without a mask, ④ communal life in small spaces, ⑤excessive movement between locations
